

EVIDENCE FROM AN AMARILLO FARMER

Strong Testimony Given by Prominent Planter Favoring Plant Juice.

Mr. B. J. Cleland, who formerly lived in Noble county, Indiana, but who for the past four years has been a successful farmer near Amarillo, made the following statement:

"For eight years I have suffered with stomach, liver and kidney troubles. My stomach would puff up and I had a constant heaviness on my chest. Also had a chronic case of constipation and could not do any heavy lifting at all. If I did I would have to be up several times during the night on account of my kidneys. My liver was in a bad way and gave me a sluggish feeling. Plant Juice has relieved me of all of this. I sleep well at night, digest my food as well as a child and my bowels are regular. Plant Juice is the greatest remedy that I have ever seen. It is just the thing for any one suffering as I did and I have no doubt that it is good for many other things. Plant Juice is a grand remedy and I am glad to recommend it to any one."

For all derangements of the stomach, liver, kidneys and blood, there is nothing to equal Plant Juice. It is as near nature's own remedies as the brains of science has been able to produce. Those who are physically run down, debilitated, dyspeptic, constipated, bilious, who have rheumatism or any derangement of the vital organs, should lose no time in getting a bottle of Plant Juice at Thompson's Drug Store.

DON'T KNOW THEY HAVE APPENDICITIS

Many Amarillo people who have chronic appendicitis, which is not very painful have doctored for years for gas on the stomach, sour stomach, constipation, I. O. Thompson & Co., states if these people will try simple buckthorn bark, glycerine, etc., as compounded in Adler-Ika, the German appendicitis remedy they will be surprised at the QUICK benefit. A SINGLE DOSE relieves these troubles INSTANTLY.

Reduction in Salt Capital
JERSEY CITY, N. J., April 21.—At their annual meeting here today the stockholders of the International Salt Company endorsed the proposal of the directors to decrease the company's capital stock. The board authorized a reduction of \$39,000, one of which \$18,231,390, is outstanding. This amount is now proposed to reduce to \$6,077,130.

Diabetes No Longer Feared

Feasible Action of a Remarkable Remedy in Controlling Liver Action.

There is no need to feel any alarm over the symptoms of diabetes. This disease is not a fatal one. It is a digestive trouble, and for this reason the liver is held largely responsible. The liver is the largest organ of the body, and is not only a mass of thread-like blood vessels, but throughout its entire surface is intimately associated with the digestive system.

The thing to do is to stimulate the action of this organ of blood vessels that each cellular part selects its own essential nutrient by healthy and judicious digestive discretion. This is accomplished by R. B. R. the most potent, the most active and the most naturally stimulating blood medicine known. You do not need purgatives; you are not alarmed at the presence of sugar in your blood. Just stick to R. B. R. and bear in mind that this celebrated remedy has such a specific stimulating action on the blood cells of the liver as to preserve their natural welfare and give a proper relative assistance, each cell to the other.

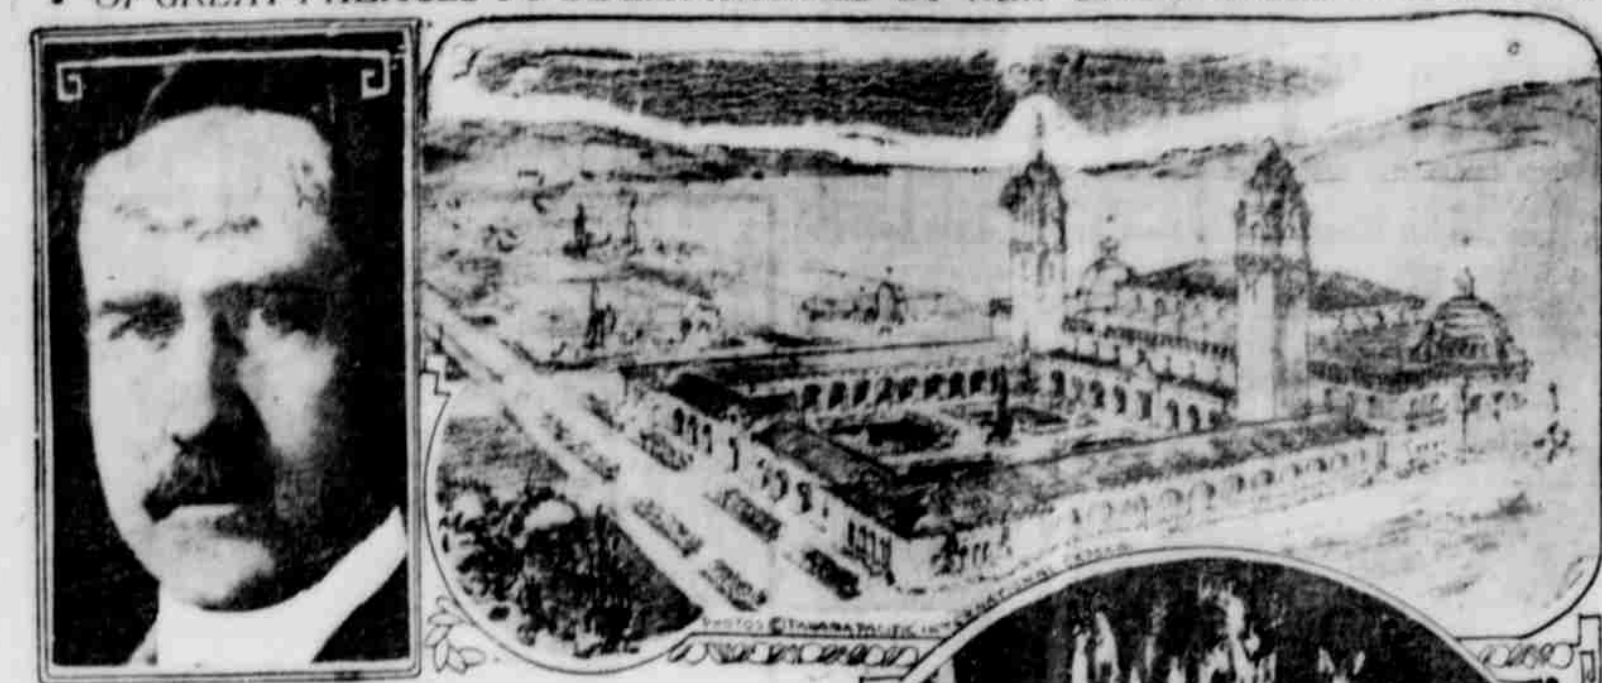

Temporary indispositions are thus overcome. Bitterness soon becomes a memory and jaundice, malaria, afflictions of the spleen and glandular swellings will be entirely eliminated. You will find R. B. R. on sale at all drug stores and for complete medical advice free, consult by mail the laboratory of The Swift Apocryphs Co., 217 South Main, Atlanta, Ga.

PREPARE MARVELS IN ILLUMINATION AT PANAMA EXPOSITION; SPLENDORS OF GREAT PALACES TO BE EMPHASIZED BY NEW DISCOVERIES IN LIGHTING

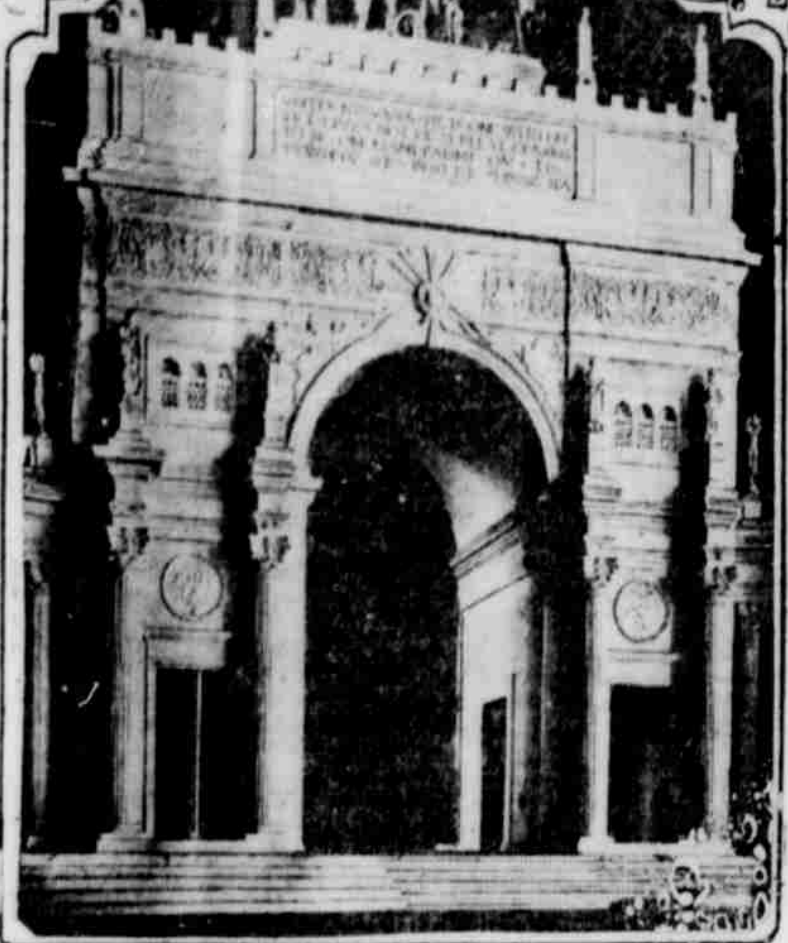

President Charles C. Moore at left; California Counties Building at Right and Triunphal Arch at Bottom. Where Astonishing Illuminating Effects Will Center.

Marvels in the development of electrical lighting apparatus and illuminating methods will enable San Francisco to light the buildings of the Panama-Pacific Exposition inside and out in a way that would have been impossible five or six years ago. Perfect reflections of light will be obtained at night in the lagoons as clearly as in daylight. There will be no glare at night and no dark places.

Fifty thousand dollars has been expended in a single line of experimental illumination, the development of which is expected to be known as "Electric Light." The extension of the electric light will be brought out as clearly and as distinctly as in the light of day. The scientific method will not be abandoned but will have been a great success.

Most remarkable among the bright and clear light will be seen with the use of the new method of illumination. The use of the new method of illumination will be seen with the use of the new method of illumination. The use of the new method of illumination will be seen with the use of the new method of illumination.

Triunphal Arch at Bottom. Where Astonishing Illuminating Effects Will Center.

STRAY TOPICS FROM NEW YORK

BREEZY BITS OF GOSSIP AND HAPPENINGS OUT OF ORDINARY

NEW YORK, April 21.—The police investigation still continues, while some of the alleged grafters of the police force are being tried in the courts. More evidence is found almost every day showing a wide spread conspiracy of graft involving various members of the police department from patrolmen upward to officials dangerously close to the head of the department. Everybody seems to be convinced that there is something wrong with the New York police department, excepting Mayor Gaynor, who still maintains that there is nothing wrong with the police.

Crooks Tolerant New York.—The investigation with its startling disclosures and the resulting uncertainty of conditions in the department has caused a deplorable demoralization of the police force to the delight and profit of the crooks and criminals who are finding New York City a veritable paradise. Thugs, burglars, safe blowers, highwaymen, pickpockets and common sneak thieves are following their various "professions" with unflinching boldness and their confidence in their safety seems to be fully justified. Criminals are seldom arrested unless they insist upon it and appear voluntarily before some magistrate to give themselves up and to confess.

The number of petty thefts committed in this city daily is almost incredible and never were pickpockets more numerous in the crowded downtown districts, and holden in their work than at the present time. The latest addition to New York's thieving craft is a man, not yet identified, who frequents the subway and elevated stations during the rush hour and snatches slippers from off the feet of young women. Several women have been robbed in this novel fashion but in every instance the thief managed to escape in the crowd.

Directors Meet in Tomb.—The interesting discovery was made the other day that on March 25 a meeting of the board of directors of the McIntyre-Purcupine Mines Limited, a Canadian mining concern, was held in the Tomb and that Albert Freeman, the company promoter, now in the Tomb under a sentence of five years in the penitentiary, for his share in the Hawthorne mining swindle, presided at that meeting in his capacity as president of the company. As Freeman under the circumstances was unable to go to Canada to attend the directors' meeting, the directors came to New York and met with

their president in the seclusion of the Tomb. In view of the steady character of hundreds of the mining companies which spring up every year and last long enough only to draw good money for worthless stock out of the pockets of an unsuspecting public, the Tomb seems to be a highly appropriate place for holding meetings of the directors of these companies and might even be selected for the permanent headquarters of these fraudulent concerns.

The residents on Chrystie Street have become so used to the frequent bomb explosions on their street that they scarcely pay any more attention to them. The bomb which was set off the other day and wrecked a barber shop and an undertaker's establishment, both conducted by Italians, was the 5th which was set off in Chrystie street since the beginning of the present year. There is scarcely a house on that street which has not suffered to some extent from the effect of bomb explosions. It is needless to remark that the police have never found a trace of the bombs who are causing these explosions.

Shoots and Marries Sweetheart.—About six months ago Thomas J. Hines, filled with jealous rage, shot a liberal quantity of red liquid, shot five bullets into the body of his sweetheart, Amelia Stoutman, when she came back from a boat ride with another man. For months the girl lingered between life and death but finally she recovered from her injuries. In the meantime her jealous lover was indicted and tried and the other day he was sentenced. The girl was in court and nearly took the presiding judge's breath away when she begged the court to let her lover go as she wanted to marry him. The judge, who evidently considered the girl's action extremely ill-advised and utterly reckless, remonstrated with her, but the girl remained firm in her determination to forget the past and condone her lover's offense by becoming his wife. In the end she had her way and after the sentence of the young man had been suspended, he and the girl hastened out of the court room, obtained a license and were joined for life within an hour.

Impudent Diner.—A nicely dressed man of middle age came into a restaurant in the lower part of Broadway and ordered an elaborate supper. He enjoyed his supper evidently but when the waiter presented the bill, amounting to \$2, the guest offered to the waiter a dime with the remark that this coin represented his entire wealth. Then the waiter requested him to leave, but the impudent guest defied the urgent invitation. The waiter insisted and a rough and tumble fight was the result. It required the combined efforts of six waiters to eject the dead-beat. Even then he had enough fight left in him to pick up a stone and smash one of the big plate glass windows of the restaurant. He was arrested and later explained to the magistrate before whom he was arraigned that

the Indian blood in his veins had asserted itself and had prompted him to his unlawful actions. The explanation was not accepted as a sufficient excuse.

Spent Not a Cent.—There was one candidate on the Democratic ticket at the recent town election at Hempstead, Nassau County, who did not spend a cent and spent a cent during the campaign preceding the election. He had been nominated candidate for Justice of the Peace on the Democratic ticket, but realizing that he had absolutely no chance to win, he urged his friends to vote for the Republican candidate and declined to spend a single cent in the interest of his own candidacy. In his certificate of expense filed with the County Clerk the unwinding candidate explained the facts, concluding with the remark: "I may be stupid but I really believe that I am not foolish."

Boy Scouts Fight Flies.—The Boy Scouts are going to take up the fight against the pestiferous homely, "man domestic," as the scientists call the nuisance and instructions have been sent to every boy scout in the State of New York and elsewhere as to the best method of swatting the pests. The boys have undertaken a big job and it is hoped that the citizens in general will make every effort to assist the youngsters in exterminating the disease carrying insects.

Texas Keeps San Jacinto Day
ALSTON, Tex., April 21.—Schools throughout the State enjoyed a holiday today in honor of the battle of San Jacinto, Texas, is very proud of this day, which recalls the crushing defeat administered the Mexicans after the massacre at the Alamo and at Goliad. Santa Anna was taken prisoner. Sam Houston commanded the Texans. It was through Houston's cleverness that the Mexican army was caught with the impossible San Jacinto river behind them, although the feat of "Dad Smith" in skirting the enemy's line and cutting the only bridge made the Mexican defeat complete.

FRECKLER

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles as the prescription outline double strength—is guaranteed to remove these homely spots. Simply get an ounce of outline—double strength—from Amarillo Drug Company and apply a little of it every night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and make a beautiful clear complexion.

Be sure to ask for the double strength outline as this is sold under guarantee of money back if it fails to remove freckles.
